

# TAKE A BREATH!

Try this breathing exercise to help you relax:

## STEP 1

Make sure you are sitting comfortably in a quiet and safe place. When you feel ready, close your eyes. Notice your breathing. Think about how it feels breathing in and breathing out. Try to breathe in through your nose and out through your mouth.

## STEP 2

Place your hand on your tummy and focus on the feeling of your stomach rising and falling with each breath. When you breathe in, quietly say 'in' to yourself, and when you breathe out, quietly say 'and out' to yourself.

## STEP 3

Concentrate on nothing but your breathing and try to let go of any other thoughts you may have.

When you've had lots of practice at the breathing exercise, see if you can think about a happy memory at the same time. This way, your happy memory will take up all the space in your brain, and there won't be any room for the worries.

DO THIS FOR 2 MINUTES
